

PRIME

Company Profile

ABOUT US

Starting from two professionals in the field of water jetting with more than one decade of experience.

PT Prima Industri Meganusa (PRIME) is here to serve industrial cleaning needs such as external cleaning and internal cleaning for factory needs.

PT Prima Industri Meganusa also provides supply for all kinds of water jetting accessories, as well as a consultant for industrial cleaning activities to achieve customer satisfaction.

VISION

To become a customer-oriented international company

MISSION

Providing quality industrial cleaning products/services at competitive prices and benefits to ensure customer satisfaction and foster good relationships with sustainable partners

PRODUCT LINE UP

The X-Series waterblasting systems from Jeststream are engineered to outperform and outlast any other unit of its kind

The X-Series units deliver a host of engineered improvements. One of the most notable changes is the new Guardian™ water tank and filter system. The Guardian’s integrated design helps extend system life, while larger filters help extend on-site operating time. Like all jetsream waterblast systems, the X-Series is built around the UNx®Pump: the most efficient, easy-to-use, and versatile waterblast pump available, You still have a choice of skind or trailer mounted units. And you still have Jetstream’s exceptional customer services team and service facilities to support you day and night.

We invite you to explore all the enhancements and operating features of the Jetstream X-Series. Together, they can take your waterblasting operations to an X-treme level of performance and operating efficiency.

X4200 SERIES 325 HP

Available as a skind or trailer unit, X-Series diesel waterblasters offer a host of features to provide contractors with enhanced performance, superior durability, and unsurpassed operating efficiency. Working preassures from 5,000 to 40,000 psi (350 to 2750 bar).

- 80 to 400 hp (59 to 298 kW) high performance diesel engines
- Pilot bearing free PTOs and covered banded belt drive
- Guardian™ Waterblast Filtration System extends component life and increases uptime with built-in filtration
- Available as a skind or low profile trailer with balanced weight distribution for stable towing
- State-of-the-art controls
- Electronice throttle control
- Hand-adjustable bypass valve
- Shutdown system to protect both the engine and the pump

325 HP	Pressure(psi)	6,800	8,000	10,000	12,500	15,000	20,000	30,000	36,000	40,000

The UHP hoses

Ultra high pressure Hydraulics

Ultra- high safety hoses for ultra high-pressure hydraulics
CEJN Ultra High-Pressure hoses for hydraulics are spiralized steel reinforced polymer that has ultra-high working pressure with maintained flexibility its low volumetric expansion gives fast response time in hydraulic systems while smooth inner bored provides a minimized pressure drop. The small outside diameter makes the hose ideal for tight routing. Each assembled kit is cut to your preferred length, fitted with one of our wide range of fittings and high-pressure couplings.

DERC
SALOTECH

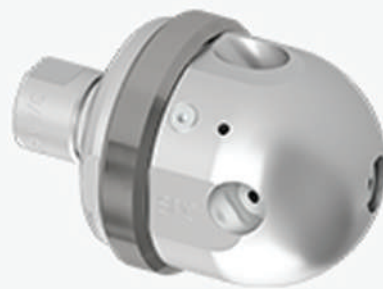

DERC Salotech manufactures a complete range of rotating Spin-Jet cleaning nozzles. The DERC Spin-Jet nozzles are designed for cleaning heat exchanger tubes and pipe lines with high pressure water technology. The water flow of your high pressure pump rotates the DERC Spin-Jets.

CONTINUOUS IMPROVMENT

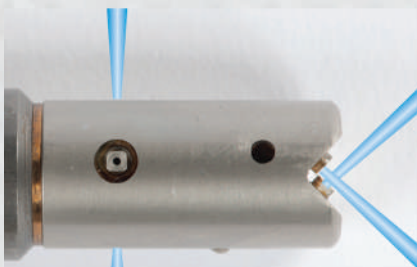

The worldwide know "SI nozzle" is subject to continuous improvement. Improved materials and optimized processing methods ensure a perfect rotating nozzle with an optimum efficiency and perfect cleaning results. The DERC Spin-Jets give a perfect 360° cleaning result as required for IRIS inspections.

CUSTOM MADE

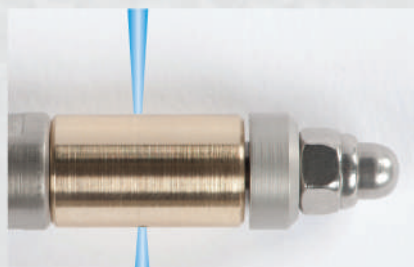

For specific cleaning projects the engineers of DERC Salotech will design and manufacture deviating models to your specific needs, in accordance with strict product requirements and safety regulations.

OUR TECHNOLOGY

Manufactured in state-of-the-art Ultra Flex Fabric tech specifically developed for Hydrojetting applicatio; withstands high pressure water jets without crossing over to the opposite side;
Ergonomic, allowing all movements of the hydrojetting operation;
Available in Overall or Trousers + Jacket or Apron models;
Impermeable external cover preventing water mist from accumulating, causing discomfort and extra weight to the operator
High quality zipper for easy placement;
Neck protector and hood are removable for more comfortable operation and without impairing the operator's field of vision depending on the position of the service.
Velcro on the sleeves and legs in order to reduce the entry of water into the outfit:

Model UAP - Light

Special protection level indicated for surface preparation companies and shipyards.

UAP Light	☑	📖	📏	➡	☑
	2.800 bar (40 kpsi)	04 x 0,35mm (0,014") 2500 rpm	75mm (3")	0,5 m/sec (20 in/sec)	OK
	700 bar (10 kpsi)	0,9mm (0,038")			

Model UAP - Max

Special protection level indicated for service companies and general use waterjetting.

UAP Max	☑	📖	📏	➡	☑
	3.100 bar (45 kpsi)	04 x 0,35mm (0,014") 2500 rpm	75mm (3")	0,5 m/sec (20 in/sec)	OK
	1.000 bar (15 kpsi)	0,9mm (0,038")			

RENTAL & SERVICE

DO YOU NEED HELP FROM OUR TECHNICIAN ?

It's time to contact us. We always ready to serve. help and giving solution for your machine problem.
Your satisfaction is our priority

DO YOU NEED SUPPORT FROM OUR WATER JETTING CONTRACTOR TEAM ?

You have a Task and we have the solution.

DO YOU NEED A MACHINE FOR ONE- TIME JOB ?

Any jobs for only one-time or wanna try before buy?
just contact and tell us what you need.
We give you an offer to rent our product

Our Customer

Some our latest customers cooperate with us:

Waterjet Radiant Tube Cleaning, on May 2024

Waterjet Evaporator and
Pan Boiling Tube Cleaning, on April 2024

Waterjet Reactor Cleaning, on April 2024
Waterjet HE Tube Cleaning, on February 2024

Waterjet Tube Cleaning, on February 2024

Waterjet Pipeline Cleaning, on January 2024

OUR CUSTOMER

Some of our latest customers cooperate with us:

Providing Waterjet Personal Protective Equipment (SAFETECH), on December 2022

Waterjet Cleaning for Heat Exchanger (HE), on March 2022
Waterjet Change Out Catalyst (COC), on Feb 2024

Waterjet Cleaning for Heat Exchanger (HE), on Feb 2023
Waterjet Cleaning for Heat Exchanger (HE) and Boiler, on Dec 2023

Waterjet Cleaning for Heat Exchanger (HE), on June 2023
Waterjet Cleaning for Heat Exchanger (HE), on Aug 2023

Waterjet Cleaning for Reactor, on Aug 2023
Waterjet Cleaning for Heat Exchanger (HE), on Sept 2023
Waterjet Cleaning for Heat Exchanger (HE), on Oct 2023

Waterjet Cleaning for Pipe Line, on Nov 2023

Providing Waterjet Personal Protective Equipment (SAFETECH), on June 2023

Waterjet Cleaning for Heat Exchanger and Boiler, Aug 2023
